

## Addendum – Schedule Details

### Self-contained Special Day Classes Schedule

Self-contained Special Day Classes will follow the District’s previously proposed schedules for three weeks after the start date highlighted in section 5(a) of the District’s updated Proposal of March 11, 2021. Starting on the fourth week of attendance, all students in self-contained Special Day Classes will attend four days a week (Tuesday-Friday). Daily schedules will be consistent with the District proposal’s Student Instructional Schedules.

### Elementary Preps

Physical Education and other elementary prep classes

PE is best done outside, and could happen non-concurrently. Any other prep classes need to happen concurrently. Band and choir must occur outside.

To be able to have the prep class for every class twice a week, a combination of morning time in person and afternoon time in distance learning will probably be necessary. It will be up to each individual site principal to develop a prep schedule which works for the school.

Some possibilities:

While each site will need to work with their unique schedules, PE classes that happen on the same day could be combined and spaced accordingly outside. The DL classes could then be combined in the afternoon for PE instruction. In the morning, this will also enable the classroom teacher to teach only the DL students while the PE teacher instructs the in person students.

Another possibility is that classes that occur at the same time could be combined with one teacher taking in-class instruction and the other taking DL instruction.

### Physical Education

Use games and activities that require no physical contact and do not require students to be in close physical proximity to each other.

Options for non-concurrent teaching of PE

**Option 1:** Sharing classes between more than one PE teacher. Have one PE teacher assigned to online teaching only while another teaches in person. The students in the 2 different classes will need to be spaced apart.

**Option 2:** PE teacher teaches the in person students in the morning and then the online group in the afternoon. This will allow classroom teachers to use their PE time for prep and for small group work.

### Lunch

There may be a staggered exit of classes for lunch. Teachers may need to escort their students to pick up lunch. Teachers will not be responsible for student supervision during lunch. Elementary lunch is grab and go and secondary lunch may occur during the in-person school day.

### Schedules

Elementary - start times can stay as they currently are. There will be 3 hours of synchronous concurrent instruction, inclusive of recess, in the morning. Students are then dismissed for a grab and go lunch. The afternoon is for asynchronous learning and small group targeted instruction.

Secondary - The secondary class schedule will be similar to what is currently offered, but with periods 1, 3, 5 on Tuesday and Wednesday, and periods 2, 4, 6 on Thursday and Friday. Some schools may need to change the times of the second and third classes of the day to ensure that students attending school in person are properly supervised. Students will engage in distance learning for all class periods on Mondays, just as they do now. For students who are attending in-person classes, each group will attend in-person twice a week, either Tuesday and Thursday, or Wednesday and Friday. To keep cohorts as small as possible, students are grouped together in classes as much as their schedules will allow.
