

KEEPING EACH OTHER HEALTHY DURING COVID-19

The guidelines below will reduce the risk of spreading illness at school. Guidelines may change over time.

Health Screening

Every Day Before School: Check your child's temperature at home every morning and look for signs of illness. Symptoms include:

Stay Home If:

- Your child has any of the above symptoms, or has been diagnosed with COVID-19 within the last 10 days.
- Your child has been told to isolate or quarantine by your doctor or the health department
- Your child had recent close contact with someone with COVID-19 (other than school contact) - within 6 feet of an infected person for at least 15 minutes within the last 10 days.

Report your child's absence and symptoms to the school each day.

Face Masks at School

Children should come to school with a cloth freshly washed or clean face masks. Face masks will be available at school if needed. N95 mask available for staff upon request, no fit test required.

Get Vaccinated - find the nearest vaccine availability here at the [CA My Turn website](#)

Get Tested - register & consent for testing [here](#)

Wash Hands

Students should wash hands before leaving home and upon returning home. All students will wash hands often or use hand sanitizer at school.

Follow Cough/Sneeze Hygiene

Teach children to sneeze into a tissue or elbow. Throw tissue away in a waste container. Wash hands with soap and water or use hand sanitizer. Do not touch face.
